

## The Samish Lake 2250

This was a custom we drew for a client. The finished home has a wonderful view over Samish Lake. It has a very large Master suite area separated from the other bedrooms. Great care was taken to privacy, balanced with an open floor plan. Interior doors are 3' wide to all main rooms. This rendering includes some optional windows and cabinets. The standard feature home is priced for a 2 foot foundation.

3 Bedrooms  
2 Baths  
Garage Included  
2250 Sq. Ft.
